

ORGANIC FIBER

COD: 2532210020565 (12 kg.)

COD: 2532210020564 (6 kg.)

DESCRIPTION

Steelpro oil spill response is an 100% natural sorbent from Chile. Made with natural fibers that help to contain, absorb, encapsulate and remove easily leaks and spills of diesel, gasoline, oil, grease, solvents, paint or products derived from hydrocarbons that are spilled by accident or handling error in the soil, water or other solid surfaces. It is a proper and recommended product for the industry and home since it can be used in all the areas where the spillage of liquids are frequent.

TECHNICAL FEATURES

- Physical appearance: greenish blue fibers
- Specific weight: 0.20
- Flash-point: 280-290 °c flammability (wet) non-flammable
- Humidity: 3%
- Ash content: 4%
- Specific gravity: 0,8/0,9
- Inert matters: 0,5%
- PH: 7 (neutral)
- Weight: 12 and 6 Kg
- Absorption capacity: 1Kg up to 7 liters

ADDITIONAL INFORMATION AND SUGGESTIONS

- The fiber absorbs several times its weight. Up to 10 liters.
- Environmentally friendly because it doesn't have toxic volatile compounds.
- Non-toxic and easy to use
- Ideal for industrial use or machinery and garage in general.
- The pads have a coated side with an impermeable material that protects and avoids the leaching of oils into the soil.
- Store in a dry place and keep away from ignition or heat

APPROVALS

- Certified of Biodegradability and toxicity- Laboratory of biotechnology (Universidad de Valparaíso)
- Approval for use in jurisdiction of the Chilean Army.
- Resolution D.G.T.M and M.M.

WARRANTY

All the physical properties and recommendations of the product are based on testings which are considered to be representative or it complies with current regulations .

Vicsa informs that it doesn't offer warranty for the use of this product in a time period. the final user is directly responsible for the application and use of the product. VICSA is not responsible for direct or indirect damages generated as consequences of improper use or incorrect storage and maintenance .

PACKING

- Steelpro oil spill response is marketed in bags of 6 and 12 Kilograms of capacity.

WARNING:

Just like other polyester materials, it is convenient to take the pads to furnaces for the total elimination

It is recommendable to follow the environmental standards of that area for the process.

Store in a dry place and keep away from ignition or heat.
